DETAILED ACTION

Drawings

1. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the chicane, camera, sensors and wires or the various claims must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as “amended.” If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either “Replacement Sheet” or “New Sheet” pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Objections

2. Claim 1 is objected to because of the following informalities: The term "comprised of" should be "comprising". Appropriate correction is required.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 3, 5-8, 11-13, 15, and 16 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

5. Claims 3, 5, and 8 rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential structural cooperative relationships of elements, such omission amounting to a gap between the necessary structural connections. See MPEP § 2172.01. The omitted structural cooperative relationships are: the structural relationship between the compartments and the containers is incomplete because it is unclear how the device supports the weight of water from the containers and what the relationship or arrangement is between the containers and the compartments (clm 3); how the containers (compartments?) are removable (clm 5); how is the structure supports the weight of the water (clm 8).

6. On claim 5, the inflatable container lacks antecedent basis. Also, "such a charge" lacks antecedent basis.

Art Unit: 3641

7. Regarding claims 6 and 8, the phrase "or other such means" renders the claims indefinite because it is unclear whether the limitations following the phrase are part of the claimed invention. See MPEP § 2173.05(d).

8. Claim 6 contains the trademark/trade name "Velcro®". Where a trademark or trade name is used in a claim as a limitation to identify or describe a particular material or product, the claim does not comply with the requirements of 35 U.S.C. 112, second paragraph. See *Ex parte Simpson*, 218 USPQ 1020 (Bd. App. 1982). The claim scope is uncertain since the trademark or trade name cannot be used properly to identify any particular material or product. A trademark or trade name is used to identify a source of goods, and not the goods themselves. Thus, a trademark or trade name does not identify or describe the goods associated with the trademark or trade name. In the present case, the trademark/trade name is used to identify/describe the fasteners and, accordingly, the identification/description is indefinite.

9. Regarding claim 11, the word "means" is preceded by the word(s) "incorporates" in an attempt to use a "means" clause to recite a claim element as a means for performing a specified function. However, since no function is specified by the word(s) preceding "means," it is impossible to determine the equivalents of the element, as required by 35 U.S.C. 112, sixth paragraph. See *Ex parte Klumb*, 159 USPQ 694 (Bd. App. 1967).

Applicant asserts that the claim element "means by which" is a means (or step) plus function limitation that invokes 35 U.S.C. 112, sixth paragraph. However, it is unclear whether the claim element is a means (or step) plus function limitation that

Art Unit: 3641

invokes 35 U.S.C. 112, sixth paragraph, because it is unclear whether the claim limitation is modified by sufficient structure for performing the claimed function. If applicant wishes to have the claim limitation treated under 35 U.S.C. 112, sixth paragraph, applicant is required to:

(a) Amend the claim to include the phrase “means for” or “step for” in accordance with these guidelines: the phrase “means for” or “step for” must be modified by functional language and the phrase must **not** be modified by sufficient structure, material, or acts for performing the claimed function; or

(b) Show that the claim limitation is written as a function to be performed and the claim does **not** recite sufficient structure, material, or acts for performing the claimed function which would preclude application of 35 U.S.C. 112, sixth paragraph. For more information, see MPEP § 2181.

10. Claim 12 recites the limitation "the suspect device/vehicle" in line 4. There is insufficient antecedent basis for this limitation in the claim.

11. Claim 13 recites the limitation "sensing apparatus" in line 2. There is insufficient antecedent basis for this limitation in the claim. Applicant has not claimed a sensing apparatus, and the claim language "may be" is indefinite because any structure "may be" used with a sensing apparatus.

12. Claim 15 recites the limitation "these devices" in line 2. There is insufficient antecedent basis for this limitation in the claim.

Allowable Subject Matter

13. Claims 1, 2, 4, 9, 10, and 14 are allowed.
14. Claims 3, 5, 6-8, 11-13, 15, and 16 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.
15. The following is a statement of reasons for the indication of allowable subject matter: The prior art does not teach, nor is it obvious (either alone or in combination), a blast mitigation device having one or more inflatable, free-standing arched frames having one or more compartments, the or each compartment being fillable with a gaseous medium under pressure, and one or more water-fillable containers supported by the or each free-standing frame.
